200 Bad Debts

201 Miss. Code Ann. Section 27-65-33 provides that any taxpayer reporting credit sales and paying the sales tax on such sales may take a credit on any subsequent return for bad debts actually charged off as uncollectible accounts. A taxpayer may not be allowed credit or refund for the sales tax associated with the uncollectible portion of a credit sale unless the taxpayer remitted the tax on the initial sales and also extended the credit used to finance the sale.

202 If any amount that has been written off as bad debt and has been taken as a credit on a return is subsequently collected, the tax due on the collected amount must be paid on the next return filed.

203 When credit is extended by a third party or when the credit instrument or account receivable is sold to a third party, neither the third party nor the retailer is eligible for a refund of sales tax associated with any bad debt charged off for uncollectible accounts.
